

I received a Message From London University Site, Wed/2/June/2021 at 1.00pm to Apply to start LLB by Oct/1/2021, by Mr Will Eames, Student Experience Manager, University of London.

My Reply soon thereafter was as follows: -

In my humble view, I have already started my study of Law, towards London University Bachelor of Laws Degree LLB, because I have registered with Coursera Inc. **FREE** Massive Open Online Course, MOOC, ***Magna Carta and Its Legacies: Freedom and Protest*** on Monday the 3rd day of May 2021 and completed 5 Weeks of beautiful Learning, up to Monday the 31st day of May 2021, with only 1 more Week to complete, which is the Six Week Part of this Module.

If money becomes available I will pay for the **Completion Certificate**, as my confidence in passing Week 4 Peer Assessment 2 and Week Six 13 Questions is reasonably high, due to the meticulous manner utilised in the last 5 Weeks, to understand, record and respond to the Lectures.

Immediately thereafter, I will enroll in the Module "**English Common Law**" and do my best to pass and then enroll in the Module "**The Rule of Law**", same Kakai pants. **Passing all 3, should guarantee my Graduate Entry Level to the LLB Programme in September 2021.**

A SCHOLARSHIP will be applied for, since there is tremendous work to be done, in my beloved Trinidad and Tobago **seeking redress**, requiring a fuller knowledge of Law and a Degree from a recognised source, leaving only my completion here, for a Legal Education Certificate, LEC.

There is enough evidence in our Local Courts, of my attempt for EIGHT YEARS to obtain redress as a LITIGANT, recorded as HCA:3178/78. So that practice applied experience was gained successfully, appearing in our local Courts, including the highest Court of Appeal, on 3 occasions.

There are a few other concerns, **Statutes, State Corporations, our 1972 Republican Constitution, behaviour of Parliamentarians, to name a few**, which will definitely get immediate attention on successful accreditation and the commencement of Legal Practice, in Trinidad and Tobago.

The doorway opened by the University of London with this **FREE** Massive Open Online Course System, by the Coursera Inc., is the way forward for Higher Education by Online Methodologies, as **COVID-19**, will be here for a very long time and **Face to Face Educating** will lose popularity.

**Coursera Inc.** has a most efficient delivery and testing System, by way of you making Personal Notes after Lectures, Discussion Prompts on relevant Topics with Peers, Peer Assessments and Final Questions, **altogether making for comprehensive Learning, in my humble view.**

**So said, if money is not immediately available to apply, my route via the Online MOCC is going to be utilised, as all the Modules for the LLB and more are available **FREE** via MOOC System.**

Much thanks for your continued interest in my future. **Education is critical for PEACE.**
